

# SCIENCE FICTION

I have loved science fiction since I was a young child. It has always opened my mind to what could be; it has allowed me to think outside of boxes.

My recommendations for either book or movie or TV series or TV episode are the ones below. I have watched these. Please note that I may only mention the original but I do endorse the entire franchise i.e. when I mention, for example, “Star Wars”, I mean I recommend watching ALL of them, movies, animated, books, cosplay, TV series, etc.
